Did you ever use a sickly baby with dimples? or a healthy one without them?

A thin baby is always delicate. Nobody worries about a plump one.

If you can get your baby plump, he is almost sure to be well. If you can get him well, he is almost sure to be plump.

The way to do both-there is but one way—is by CARE-FUL LIVING. Sometimes this depends on Scott's Emulsion

And does his best to keep his trade
From foreign competition;
Be it in iron, brass or tin,
it should not be neglected,
As home industry is a thing
Which ought to be protected.

Can it be right to patronize
A nation that engages
To undersell another land . By paying pauper wages?
And it will come to that at home
If there is no objection
Against it by the workingman
Assisting for Protection.

Protect your home and fireside,
Protect a friendly neighbor.
But above all protect yourself,
Your country and its labor;
Or you will find when it's too late,
By rad and sore reflection.
That you have made a grand mista By giving up Protection.

A TIMELY WARNING.

Hon. Thomas F. Hayard Issues a Letter to the Democra's of the Country-Dangers of Free Coinage.

Hon, Thomas F. Bayard has addressed an open letter to the Democrats of the country upon the question of free silver colinge, in the course of which he says:

In proportion to the gravity of public questions, plain and candid utterances become the duty of an American citi-zen. I have watched with increasing apprehension the legislation of Congress in relation to the coinage of silver, and from the very first have deplored and opposed the false position assumed by the government in 1878, for the first time in its history, of entering the market as a purchaser of silver bullion, and forcing its coinage as money. ion, and forcing its coinage as money and as an unlimited legal tender at a nominal value behind its intrinsic and cal value. Natural laws, the laws of demand and

supply and the right of private contract, properly and justly control the presence or absence of gold and silver statutes arbitrarily replacing these laws will be always maleficient and creative of confusion and disaster in the business of mankind. These truths are plainly written on the face of history and all human experience. Their den-ial and rejection will be met by speedy proof of their necessary and inexorable acceptance. If those who now propose to deny them and being possessed of the temporary representative power shall assert by the passage of a statute their power to create a value in the metal of silver or any other commedity. metal of silver, or any other commodity, and enforce its free and unlimited coin-age at a ratio of value as compared to gold far above the intrinsic value altered by the prices current/in every mark-et in the civilized world, they will soon find themselves and their followers face themselves and their followers face to face with the "opinions of mankind," that tribunal to which our forefathers so solemnly appealed when they struck the shield of the arbitratary power of a British king and his ministry and declared for liberty and independence.

With such a flood set in motion what must become of the carefully the control with the control with the careful the control with the careful the c

must become of the carefully conceived power of our present gold reserve of \$100,000,000, expressly set apart for the single and special end of maintaining free competition and the interconvertifree competition and the interconverti-bility of the two precious metals a fund, be it remembered, bought and paid for by the sale of government bonds, upon which interest has ever since been reg-ularly paid. Can this single bulwark, which has been the great faction in maintaining the unquestionable confi-dence in every dellar in the hands of the men, women and children of the land, withstand the current of demand and, withstand the current of demand

land, withstand the current of demand for gold when it has reached a premium, and the panic that is sure to follow. I would be unfaithful to my party affiliations and unmindful of my duty to my country if I did not warn the Democratic advocates of free silver coinage to beware lest by their action the impair and weaken public confidence in the wisdom and conservatism of the or-ganization of which they are members, and thereby decrease the dangers and evils of the continued ascendancy and control of a political party, proven by its record in the last Congress to be sectional in its objects and purposes, mer-cenary throughout its organization, and regardless of the consideration of our government whenever power is to be obtained or perpetuated by its violation

struck with the wonderful development he sees in Bluefield. A little over three he sees in buened. A fittle over three years ago quiet reigned in this paradoxical valley, for in reality it is a valley on top of a mountain, being 2.587 feet above sea level and the highest town of its size east of the Rockies. A town of its size east of the Rockies. A short time ago cattle and sheep grazed on its fortile fields; now we have what is destined to be the grandest railroad yard in the country. Oftimes a scene is presented to the eye on this yard (with its miles of black diamonds in cars waiting to be whirled to the seaboard) that is grand beyond description. They go forward to feed the great occan grey-hounds; they go to supply power to the almost innumerable enterprises which have sprung up through the management of the greatest of all developers in the south, the Norfolk & Western Railroad Company; they go to cheer the fine south, the Norion & Western Rail-road Company; they go to cheer the family circle and brighten thousands of hearthstones. Cast the eye from this busy railroad scene, and see what has been accomplished toward developing the city. MOTHING LIKE II

SWIFT'S SPECIFIC is a distinctive remedy,
and is totally unlike any of the other blood
medicines which are sold. It cures diseases
of the blood and skin by removing the poison of the blood and skin by removing the poison germs which cause them, and at the same time supplies good blood and tissue for the wasted parts. Don't be imposed on by substitutes, which are said to be just as good, for it is not true. No medicine

#### IN THE WORLD

has performed as many wonderful cures, or has relieved so much suffering.

"My blood was badly poisoned last year, which got my whole system out of order—diseased, and a constant source of suffering, no appetite, and no enjoyment of life. I bought two bottles of Swift's Specific and took it, and it brought me right out. No better remedy was ever used for blood diseased than Swift's Specific." JOHN GAVIN, Dayton, Olio,
